

“The Man in the Moon Shadow”

WOW! The Most Incredible Thing You'll Ever See!

What it's Like and What it Takes to Experience a Total Eclipse of the Sun

Dave Balch traveled halfway around the world to see a total eclipse of the sun that only lasted 40 seconds! He has been to 7 eclipses and he intends to go to every eclipse for the rest of his life no matter where they occur. In his “real” life, he generated over \$5 million from a home-based software business, but it is this passion that truly drives him.

“... I saw a raptly interested crowd hanging on your every word. The following question and answer period showed you must have touched something within them.”

Brian V. Staples, Vice-President
San Diego Astronomy Association

“You sounded just like a missionary, full of zeal, trying to convince others how incredible and wonderful it can be to stand in the moon's shadow”

Chris Clarke, Secretary/Outreach
Coordinator
San Bernardino Valley Amateur Astronomers

“You really wowed us with your depiction of what it's like to experience a total eclipse. Your participation helped make the conference a huge success.”

Paula Berinstein
Ventura County Astronomical Society

“Your passion came through loud and clear!”

Maureen J. Keene, Keene Commercial
